

QUICK START

ZEENY TWS

Thank you for purchasing Zeeny TWS.
Please check the main unit and accessories first.

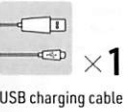

Main units

Battery charging case

Accessories

Connecting Zeeny to your smartphone

Installing the Zeeny application

Please scan the QR code on the right side with your smartphone and install the Zeeny application. This application supports Android™ 5.0 and up, or iOS 10 and up. (As of March 2019)
If you cannot scan the QR code, please access this website.

Starting the Zeeny application

After you finish the installation, please open the Zeeny application.

Zeeny

Pairing Zeeny with your smartphone

When the Zeeny main units are removed from the battery case, they become automatically available for pairing. Please confirm that the white and orange LED lights are blinking alternately, and then follow the instructions on the application

If you cannot pair Zeeny, please refer to the Q&A on the support page.

Basic operations

Powering on or off

- Power ON** When the main units are removed from the charging case, or by pressing the MFB for 1 second, the LED will turn white, and the power will turn on.
- Power OFF** When the main units are put back into the charging case, or by holding the MFB for 7 seconds, the LED will turn orange, and the power will turn off.

Charging

- 1 To charge the main units, please put them back to the charging case. When charging, the main unit LEDs will turn orange. After the charging is completed, the LEDs will turn white. It takes 2 hours to charge completely.
- 2 To charge the charging case, please use the provided USB cable to connect the charging case into an available USB port on a computer. When the charging is completed, all battery level LEDs turn blue.

Pairing operation

- Start pairing** In a power OFF state, hold the power button for 6 seconds and the LEDs will alternately blink white and orange, and the device will be in a pairing standby state.
- Clear pairing information** When the main units are in the charging case, press the power button for 6 seconds, and the pairing information with the smartphone will be deleted.
- * If there is no pairing information, then when you power ON the device, it will automatically enter a pairing standby state.

Music playback

By pressing the MFB, you can play or pause music.

Phone Call

- 1 When you have an incoming call, press MFB to take the call. Press the MFB during the call to terminate the call.
- 2 When you have an incoming call, hold MFB for 2 seconds to refuse the call.

Voice control (Usable on devices which work with Google voice search or Siri)

If you hold the MFB for 0.5 seconds, you can start the voice control. When the voice control is activated, you can end it by holding the MFB button for 1 second.

Zeeny Now (This function can be used with Zeeny App)

By pressing the MFB for 1 second, the current time, main unit's battery information, and your next schedule are notified by voice.
